Programming

RUBY FINDER • <https://github.com/Tmee/Ruby-Finder> • rubyfinder.herokuapp.com

Developed web scraping software tool for automated data extraction of current Ruby Developer job postings. Tool uses Nokogiri to parse the HTML of four popular employment websites. Users input desired location and receives relevant data from the first ranked page of those four employment websites.

TECHHIRE • <https://github.com/turingschool-projects/techhire> • techhire-registration.herokuapp.com

Project at Turing School for Obama's TechHire Initiative. My role in this project was to move the static HTML app into a dynamic and editable one. Ruby, Rails, jQuery, PostgreSQL

TECH BLOG • <https://github.com/Tmee/Tech-Blog> • timothymee.net

Created blog to organize and house technical tutorials for reference. Blog also serves as resource for programmers as they trouble-shoot and learn different applications. Blog uses AngularJS with CoffeeScript and Ruby on Rails with PostgreSQL.
